<b>Nafn</b>	<b>Vistgerðir</b>
<b>Skilgreining</b>	Vistgerð (e. habitat type) er landeining sem býr yfir ákveðnum eiginleikum hvað varðar loftslag, berggrunn, jarðveg, gróður og dýralíf. Innan sömu vistgerðar eru aðstæður með þeim hætti að þar þrífast svipuð samfélög plantna og dýra ( <a href="https://www.ni.is/grodur/vistgerdir">https://www.ni.is/grodur/vistgerdir</a> )
